A growing awareness of the many health benefits fibre can offer has prompted consumers to become more conscious of food and beverage products that contain fibre. In fact, globally, 53% of consumers say they want more fibre in their diet.\(^1\)

Despite the desire to consume more, consumers worldwide are not getting enough fibre in their diets. Most individuals fall considerably short of the various country guidelines which range between 25 to 38 grams per day.\(^2,3\) Reportedly, this is largely due to a lack of products with fibre.\(^1\)
PROMITOR® Soluble Fibre makes it easy to meet consumer demands for more fibre. Thanks to its superior digestive tolerance, clean taste, consumer-friendly labelling and ease of use, PROMITOR® is the ideal ingredient for fibre enrichment and/or sugar and fat reduction.

**BENEFITS**

**PROMITOR® Soluble Fibre:**

- Has superior digestive tolerance. In fact, PROMITOR® has more than two times the digestive tolerance of insulin.\(^4\,5\)
- Depending on the country, enables manufacturers to make a variety of fibre content claims and health benefit claims including low glycaemic response,\(^6\) digestive health claim (prebiotic benefits) and bone health claims (increased calcium absorption and bone mineralisation).\(^7\,8\)
- Has a neutral colour and clean taste. Its solubility enables manufacturers to significantly boost fibre in a broad range of applications without compromising taste and texture.
- Helps reduce calories, maintaining texture and mouthfeel in reduced-sugar/fat products.
- Has exceptional process and shelf stability, even in low pH conditions. Hence there is no need to overdose for loss of fibre, resulting in an attractive cost in use.

**PRODUCTS**

PROMITOR® Soluble Fibre is a versatile fibre that imparts little to no colour or off flavour and provides fibre enrichment and/or sugar and calorie reduction. Promitor is available in liquid and powder to facilitate product development in a wide variety of food and beverage applications.

**APPLICATIONS**

PROMITOR® Soluble Fibre is easily incorporated into a broad range of applications, including beverages, yoghurt, bars, cereal, meal replacements, ice cream, bakery, dressings and sauces.

---

**LABELLING OPTIONS:**

PROMITOR® offers a variety of consumer-friendly labelling, with non-GM (IP) versions available. Labelling regulations may vary from one country to another, please consult your own regulatory personnel when determining how to label your finished product.

**Possible options include:**

- Soluble corn fibre
- Soluble gluco fibre
- Maltodextrin
- Resistant maltodextrin

**HANDLING:**

Store in cool dry conditions in original packaging

**SHELF LIFE:**

- Liquid 365 days
- Dry and Agglomerated: 730 days

PROMITOR® Soluble Fibre is one example of Tate & Lyle’s award-winning portfolio of fibre solutions. The portfolio addresses many manufacturer challenges, including clean taste and colour, digestive comfort, health benefit claims, consumer sentiment and cost considerations. Other solutions in the portfolio include PromOat® Beta Glucan and STA-LITE® Polydextrose.
